DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Robinson et al. (US#5595341).

3. Robinson discloses a replacement mailbox signal flag (Fig. 1) comprising: a stem 48b having a mounting aperture 48a; a detachable stop tab 26 attached to the stem; a detachable bushing 44 (col. 6, lines 22-26) attached to the stem; and a flag portion 48c attached to the distal end of the stem in relation to the mounting aperture. The stop tab and bushing are indirectly attached to the stem as the stop tab and bushing are attached to element 10, which is in turn attached to element 48 (col. 5, lines 49-66), which includes the stem. Element 26 is being viewed and labeled as a “stop tab” as element 26 limits, or stops, the movement of the stem (Fig. 8).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
